COLIBRI MODULES O5-O14: Presentation in AAU Moodle.

We have made all our teaching materials available for download, so other can make use of it. However, to understand how the material was used we found it helpful to show how it was actually presented to the students.

First of all, the content is made publicly available with guest access enabled (however, some interactive content do not work with guest access). To obtain guest access you first need to follow these steps:

- Go to moodle.aau.dk
- Choose “guest”, and then “Log in as guest”
- Now you are logged in, and can follow the links provided below.

Year 1 (2015): All modules were implemented as one course and can be accessed here: https://www.moodle.aau.dk/course/view.php?id=10597

Year 2 (2016): This year it was organised completely different in Moodle, since each level of each module was basically set up as an individual course. You can find the links to all modules here: https://www.moodle.aau.dk/course/index.php?categoryid=2437

Year 3 (2017): You can find the links to all modules here: https://www.moodle.aau.dk/course/index.php?categoryid=3006

The teaching material is developed as a part of the Erasmus+ Strategic Partnership Colibri: Collaboration and Innovation for Better, Personalized and IT-Supported Teaching. The material has been produced with the support of the Erasmus+ programme of the European Union.

You can learn more about the Colibri project on www.erasmus-colibri.eu, and also find additional teaching materials, guidelines and reports.
