COLIBRI MODULE O6: Nanonetworking and Molecular Communications

This teaching material is developed as a part of the Erasmus+ Strategic Partnership Colibri: Collaboration and Innovation for Better, Personalized and IT-Supported Teaching.

The material has been produced with the support of the Erasmus+ programme of the European Union.

All materials of the module are published according to the Creative Commons Attribution-ShareAlike 4.0 International license. This implies that you can copy and redistribute the material in any medium or format, and that you can remix, transform, and build upon the material for any purpose, even commercially. However, you must give appropriate credit, provide a link to the license, and indicate if changes were made. You may do so in any reasonable manner, but not in any way that suggests the licensor endorses you or your use. If you remix, transform, or build upon the material, you must distribute your contributions under the same license as the original.

You can read more about the license here: https://creativecommons.org/licenses/by-sa/4.0/

You can learn more about the Colibri project on www.erasmus-colibri.eu, and also find additional teaching materials, guidelines and reports.
