Bioprocess Engineering - Advanced Practical Course - WS19/20

The module ‘Bioprocess Engineering Advanced Practical Course’ consisting of the following two courses will be held within the examination period of winter semester.

1. Advanced Technical Microbiology
   - 14. February 2020 from 14:00 p.m. to 15:00 p.m.
     - Colloquia + safety instruction
   - 17. - 21. February 2020
     - One week laboratory course, starting at 9:00 a.m.
   - Contact: philip.busch@tuhh.de
   - StudIP registration until: 10. February 2020

2. Advanced Practical Course Bioprocess Engineering
   - 06. March 2020 from 13:00 to 15:00
     - Colloquia + safety instruction
     - One week laboratory course, starting at 8:30 a.m.
   - 20. March 2020 13:00 to 15:00
     - Presentation
   - Contact: yaeseong.hong@tuhh.de or ludwig.selder@tuhh.de
   - StudIP registration until: 02. March 2020

You have to participate successfully in the colloquium and safety instruction prior to attending each practical course. Failed colloquium has to be repeated on the next Monday. Each practical course will be passed after an accepted protocol.

Please, sign in online (Stud.IP) for each course at https://e-learning.tu-harburg.de.
