

General information

This brochure explains the student finance options that support students of various disciplines. It also covers loan facilities and reference is made to the dual degree at the TUHH.

This is not an exhaustive list. A list of some smaller scholarship providers can be requested from the

Stifterverband für die Deutsche Wissenschaft

Email: mail@stifterverband.de

Scholarships are awarded according to the foundations' requirements and resources, as well as the respective funding priorities. Some foundations may not be awarding scholarships currently or are only supporting university research projects.

In general, the awarding of scholarships is subject to certain conditions, such as the need to engage in political or religious activity. It is sometimes expected that the scholarship holder work for the foundation fund or for its benefit after completing their degree.

The selection criteria and obligations specified in this brochure are not exhaustive. Please find further information by visiting the websites listed.

An overview of scholarship opportunities for German students and graduates abroad can be found online: www.daad.de. For further information, we recommend looking at the websites listed in the appendix.

We would welcome any comments or suggestions.

1. *Scholarships for German and international students*

Dr. Arthur Pfungst Stiftung

Website: www.pfungst-stiftung.de

Foundation goal

The foundation goal is to foster “the common good by supporting education among all social classes”.

Requirements

Individual scholarships are awarded to gifted students studying at a university or university of applied sciences.

A scholarship is awarded on the basis of “being gifted” and “financial need”. Applicants must provide evidence of both by means of copies of certificates, evidence of academic achievement from studies already commenced, as well as a statement of their income and that of their parents. Clear career goals should be stated and the degree should be linear and focused on the qualification.

- It is only possible to apply after having studied for approx. 2 semesters.
- Second degree courses are not funded.

Avicenna-Studierendenwerk e.V.

Website: www.avicenna-studienwerk.de

Funding purpose

The purpose of the scholarship fund, which was founded in March 2012, is to support talented Muslim students and doctoral candidates.

General requirements:

Above-average academic performance, social commitment and a convincing argument are all required when applying to the Avicenna-Studienwerk. High school graduates and students can apply.

Formal requirements:

- Muslim (non-Muslim applicants may also be supported in exceptional cases).
- Citizen of an EU member state/residents of Germany with eligibility for funding as per section 8 of BAföG.

- Enrolled at a state or state-recognised German university.
- In the case of students, they must still have at least 4 semesters of the standard period of study remaining. It is also possible to apply before starting a four-semester Master's course.

Bayer Foundations

Bayer Science & Education Foundation

Website: www.bayer-stiftungen.de

Foundation goal

Funding is provided for students studying their main degree and graduates who have qualified within the past two years.

The Bayer Fellowship Program is aimed at students and apprentices in scientific and medical disciplines. In addition to the Bayer Fellowship Program, Bayer offers a number of other forms of funding.

Requirements:

Internationality is a key aspect: The foundation only supports projects abroad completed by applicants from Germany, or scholarship holders who study or work abroad and aspire to complete a project in Germany.

- Biology and molecular biology
- Bioengineering and bioinformatics
- Chemistry and biochemistry
- Pharmacy

Claussen Simon Stiftung

Website: <http://www.claussen-simon-stiftung.de/stiftung.html>

Foundation goal

Since 1982, the 'Claussen Stiftung' has been supporting scientifically and technically gifted young people. Since 2017, it has particularly supported female students who are aiming for a Bachelor's degree in a MINT subject. Every year, scholarships of max. EUR 1500 per month are awarded for a Master's programme to be studied in Germany.

Requirements:

- Very good Bachelor's qualification
- Students of any discipline on Master's courses studied in Germany will be supported.
- The application must be submitted prior to starting the Master's degree

In addition to supporting Master's courses, there is a comprehensive support programme for young academics.

Cusanuswerk Bischöfliche Studienförderung

Website: www.cusanuswerk.de

Foundation goal

Supporting particularly talented and committed students and doctoral candidates of all disciplines at universities, music colleges, art colleges and universities of applied sciences.

Requirements:

- Catholic
- German citizenship, citizenship of another EU member state, or resident of Germany with eligibility for funding as per section 8 of BAföG
- Enrolled at a state-recognised university in Germany, an EU member state or Switzerland
- At least another five semesters of the standard period of study remaining at the time of acceptance

Das Demokratische Stipendium (ON HOLD)

Website: www.stipendium.de

German Academic Exchange Service (DAAD)

Website: www.daad.de

Foundation goal

According to its statutes, the DAAD has the task of promoting international study relations, particularly fostering academic and scientific exchange between Germany and abroad. Scientists, professors and students of all disciplines, including the arts, from almost every country in the world participate in this exchange.

Information about the DAAD's funding opportunities for German and foreign students, graduates, doctoral candidates, post-doctoral graduates and university teachers can be found on the DAAD scholarship database.

Dual degree at the TUHH

Website: <https://dual.tuhh.de/>

Eligible applicants

Those interested in studying a B.Sc. course at the TUHH

Requirements

- Ability, curiosity and commitment
- Aged between 18 and 25
- General higher education entrance qualification
- Good results in mathematics and physics
- For foreign applicants: Proof of residence permit and work permit following graduation.
- For applicants: completed military or civilian service, or proof of withdrawal or exemption
- Discipline, reliability, independence and ability to work in a team

Applications for a scholarship place as part of a dual degree must be submitted directly to the company of your choice. You must also apply for the relevant course at the TUHH. The application period for companies begins in autumn of the previous year and ends on 30th June. We highly recommend that you apply early. The application deadline for the TUHH is 15th July

E. W. Kuhlmann Stiftung

Website: <http://www.studien-abschluss-hilfe.de/>
and www.rollendes-stipendium-hamburg.de

A principle of the E.W. Kuhlmann Stiftung is to provide HELP FOR SELF-HELP. There are two funding options:

Study grant micro loans

For many years, the foundation has been supporting students who find themselves in financial difficulty during the final phase of their studies by granting interest-free loans for five years, up to a maximum amount of EUR 2000 per student. Repayment must be made by the fifth year at the latest; in the sixth year, interest at the equivalent rate of the respective borrower's bank would be due. The amounts repaid are used for new micro loans. The completed application form is to be sent to the foundation, together with a photo, letter and completed checklist.

Requirements

- Good academic achievements
- Students due to conclude the examination procedure within nine months and start their professional career after graduation

Rolling Hamburg scholarship

With its “Rolling scholarship” programme, the foundation supports students of almost any discipline who will complete their degree within 24 months and will then start their professional career.

Each quarter, the foundation grants a loan of a maximum of EUR 12,000, which is interest-free for seven years. Payment is made in two instalments. The amounts repaid are used to guarantee similar scholarships. It is possible to apply at any time. To avoid unnecessary effort, it is recommended to submit a pre-application enquiry online: www.rollendes-stipendium-hamburg.

Requirements

- Enrolment at a higher education institution in Hamburg
- Completing a degree within 24 months and then starting a professional career

E-fellows.net – online scholarship

Website: www.e-fellows.net/show/detail.php/2036

Foundation goal

The online scholarship is particularly aimed at students of law and economics, as well as students of natural sciences and engineering.

Requirements

The programme supports students with above-average talent, doctoral students and legal trainees. Applicants from universities and other higher education institutions are accepted.

Erich Becker Stiftung

Website: www.erich-becker-stiftung.de

Foundation goal

Support is given for written academic work in the field of air transport, including logistics and mobility, by awarding scholarships and prizes for special achievements.

Requirements

Scholarships are awarded to individuals who are interested in aviation-related topics at

universities in Germany and abroad who are working on or planning one of the following:

- Diploma, Master's or similar academic dissertations;
- Doctoral theses;
- Post-doctoral theses.

Work undertaken at Bachelor's level is not supported.

Applications can be submitted by post or electronically at any time as long as the work has not yet been completed and submitted to the responsible university body.

Prof. Dr.-Ing. Erich Müller Stiftung

Website: http://stiftungen.stifterverband.info/t001_muellererich/index.html

Foundation goal

The purpose of the foundation is to promote education in engineering sciences at German universities.

Requirements:

Scholarships are awarded to students of mechanical engineering, electrical engineering, chemical engineering, environmental technology and materials science. Scholarships covering physics, computer science or chemistry are only within the scope of the foundation if there is a direct practical connection to engineering sciences. Students at universities or technical universities are supported.

Ernest Solvay Stiftung

Website: www.solvay-stiftung.de

Foundation goal

The foundation's study grants enable students of chemical engineering, process engineering, technical chemistry and bioengineering at German-speaking universities in Germany, Austria and Switzerland to study abroad, and students from Eastern and Central European countries to conduct research at a university in Germany.

Requirements

- Funding is provided for students in higher semesters who wish to write a study/Bachelor's dissertation or diploma/Master's dissertation at a foreign university.
- Prerequisites are above-average academic achievements and good language skills.
- In addition to complying with these general criteria, within the framework of the current allocation of funding, the foundation would also welcome work that deals with the

topics of energy storage, renewable energies and materials for electronics (printed electronics).

- Furthermore, there is the possibility to support students from Eastern and Central European countries who conduct research at a university in Germany as part of their studies.

Ernst Ludwig Ehrlich Studienwerk

Website: www.eles-studienwerk.de

Foundation goal

ELES supports particularly talented Jewish students and doctoral candidates who are German citizens, EU citizens, or residents of Germany with eligibility for funding as per section 8 of BAföG. Support is provided in line with the guidelines set out by the German Federal Ministry of Education and Research. It is provided for education at state and state-recognised universities, i.e. universities, universities of applied sciences, as well as art and music colleges in Germany, the EU and Switzerland. Non-Jewish students may also apply.

Requirements

- At the time of application, applicants must still have at least five semesters of study before they reach the maximum funding period under BAföG, which corresponds to the standard period of study.
For students on a Bachelor's course, this standard period of study also includes the four-semester Master's phase following the Bachelor's course.
- We expect above-average school and academic achievements, but also commitment beyond that: in Jewish communities, in the social sector, in youth work, in student organisations and in society more generally.
- Scholarship holders are expected to regularly exchange ideas with their lecturers and to actively participate in the alumni network of the Ernst Ludwig Ehrlich Studienwerk after the end of their scholarship.

Evangelisches Studienwerk e.V. Villigst

Website: www.evstudienwerk.de

Foundation goal

The programme supports talented Protestant students and doctoral candidates of all disciplines at scientific, artistic and pedagogical universities, as well as universities of applied sciences.

Requirements

- Member of a Protestant Church (in justified cases, the Board of Directors may allow exceptions)
- EU citizen, Swiss citizen or eligible for funding according to section 8 of BAföG
- Proven social engagement (e.g. church, social affairs, environment, politics)
- Higher education entrance qualification (soon to be expected); 4th semester not yet completed
- Degree qualifying for doctoral studies
- For doctoral candidates: above-average academic achievements and studies completed quickly

Friedrich Ebert Stiftung

Website: www.fes.de/studienfoerderung

Foundation goal

The following are supported:

- Students at state or state-recognised German universities and universities of applied sciences
- Students of postgraduate programmes and Master's courses

Requirements

- Excellent academic and study-related performances
- Socio-political engagement
- Distinguished personality

Friedrich Naumann Stiftung

Website: www.freiheit.org

Foundation goal

The aim is to impart liberal basic values and key qualifications to particularly qualified, intellectual and committed students and doctoral candidates within the framework of political education work. Funding is provided for first studies (diploma, Magister, Bachelor's and Master's courses) and doctorates.

Requirements

- Talent
The foundation recognises both above-average talent in the field of study, and additional specialist interests.
- Character qualities such as reliability, motivation and decisiveness, as well as the willingness to assume responsibility and actively contribute one's own skills to further develop society.
- Liberal, political and social engagement

Hanns Seidel Stiftung e.V.

Website: www.hss.de

Foundation goal

The Hanns Seidel Stiftung's Institute for the Advancement of the Gifted has made it its mission to contribute to the education of a personally and scientifically highly qualified young academic by providing financial support and support with ideas.

The target group are students and doctoral candidates who have above-average school and academic achievements, while also showing social commitment.

Hans Böckler Stiftung

Website: www.boeckler.de

Foundation goal

The Hans Böckler Stiftung supports young people who believe that they cannot afford to study and those who want to take on responsibility in society.

Equal educational opportunities for all: The Hans Böckler Stiftung awards scholarships for degrees and doctorates, as well as second chance education. The foundation supports students' vocational orientation and the transition to work.

Requirements

- Good academic achievements
- Socio-political engagement or other activities

Heinrich Böll Stiftung

Website: www.boell.de

Foundation goal

The Heinrich Böll Stiftung's Studienwerk awards study and doctoral scholarships to German and foreign students and doctoral candidates who demonstrate outstanding achievements and social commitment.

Requirements

a) For German applicants and residents of Germany with eligibility for funding as per section 8 of BAföG, the following applies:

Applications can be submitted prior to admission or up until the 3rd semester of study

Key funding focuses: MINT subjects, particular target groups

b) For foreign applicants who wish to study in Germany, the following applies:

- Applicants must have a first degree that qualifies them for a profession. The key funding focus is to support graduates on a Master's course.
- Good knowledge of the German language is required; proof of this is requested.

Dr. Jost Henkel Stiftung

Website: <http://www.henkel.de/karriere/jobs-und-bewerbung/-/368762>

Requirements

- Studying at a state or private university in Germany or abroad
- All disciplines are supported, with a focus on natural sciences and economics.
- Students with above-average academic achievement who lack the necessary financial resources

Applications for funding may be submitted after intermediate examinations have been completed.

Kölner Gymnasial- und Stiftungsfonds

Website: www.stiftungsfonds.org

Foundation goal

The scholarships awarded by the Kölner Gymnasial- und Stiftungsfonds provide targeted and individual support – depending on the applicant's situation and without subsequent repayment obligations. They help gifted pupils and students to finance their education and living costs, and thus enable them to study in an unrestricted and concentrated way. A growing range of educational programmes and networking activities complements the financial support available.

The following are supported:

- Studies at universities/universities of applied sciences with state-recognised degrees;
- Temporary, subject-related studies abroad;
- Postgraduate studies that are important for the desired profession;
- Doctoral candidates

Requirements

- Good academic achievements
- Funding from the 3rd university semester at the earliest; degree must be completed within the standard period of study; in justified cases, the standard period of study may be exceeded by up to a maximum of 30% of the standard period of study
- Studies completed by the age of 30
- Funding of foreign applicants only for studies in Germany

Konrad Adenauer Stiftung e.V.

Website: www.kas.de/stipendium

Foundation goal

We support particularly talented and committed young people with a scholarship. Our goal is for them to assume responsibility as future managers and active citizens in politics, business, science, the media, culture and society. We are guided by an image of humanity that is shaped by Christian Democratic values.

Requirements

- Students of all disciplines who fulfil the requirements of section 8 of BAföG with regard to their nationality
- German graduates
- Foreign students and graduates

- Above-average degree or doctorate qualification, and social commitment for the benefit of the foundation

Markelstiftung – currently no funding decisions

Website: www.markelstiftung.de

Otto Benecke Stiftung e.V.

Website: www.obs-ev.de

Foundation goal

The foundation's aim is to integrate immigrants into society as quickly as possible, particularly by continuing immigrants' education that was interrupted in their country of origin.

Requirements/target groups

- Recent repatriates (Spätaussiedler) and their accompanying family members (provided they are listed in the registration document)
- Those entitled to asylum
- Refugees under the Geneva Refugee Convention
- Jewish migrants and their spouses, resettlement refugees and other persons admitted to Germany for reasons of international law or humanitarian reasons

The application must be submitted before reaching the age of 30

As a rule, the first application must be made within two years of entry; in the case of people entitled to asylum, the application can be made within one year of receiving legally binding recognition (in the case of a lengthy asylum procedure).

Rheinstahl Stiftung

Website: www.rheinstahl-stiftung.de

Foundation goal

The Rheinstahl Stiftung supports talented students in their university education and professional development by funding their studies. By providing financial and non-material support, we hope to support our scholarship holders in achieving outstanding academic achievements, exercising social commitment, assuming responsibility and further developing an active interest in industry.

Requirements

Students of the following courses in particular will be supported:

- Mechanical engineering
- Electrical engineering
- Engineering management
- Shipbuilding

Students must already be in their 3rd semester of a Bachelor's course or on a Master's course.

Richard Winter Stiftung

<http://www.mystipendium.de/stipendien/Richard-Winter-Stiftung-1950>

Foundation goal

Funding natural sciences in research and teaching, particularly supporting students and doctoral candidates who are talented and in need. Excellent academic achievements are expected.

Robert Müller Stiftung

Email: rms@ra-koehncke.de; Tel.: 040-45 64 44/ 040-45 33 44

Foundation goal

Support for students on a shipbuilding course in the form of an interest-free loan.

Rosa Luxemburg Stiftung

Website: www.rosalux.de

Foundation goal

The aim of the Rosa Luxemburg Stiftung is to contribute to democracy, social justice and solidarity through political education, and to compensate for social, gender or ethnic discrimination.

Requirements

German and foreign students of all disciplines who have been admitted to study at a state or state-recognised higher education institution (university or university of applied sciences) in Germany can apply for a study scholarship from the Rosa Luxemburg Stiftung. German nationals who have been admitted to study at a university in an EU member state or Switzerland can also apply for a study scholarship.

Further requirements:

Requirements for a study scholarship are very high academic achievement, as well as proof of a pronounced social commitment for the benefit of the Rosa Luxemburg Stiftung. You

must complete your studies within the standard period of study.

RWE Group Business

Website:

<http://www.rwe.com/web/cms/de/107292/rwe/karriere/einstiegslevel/studenten/>

Study grants

Students on a Master's course in electrical engineering, communications engineering, information and communication technology, engineering management or civil engineering with outstanding achievements in the Bachelor's course are supported. Preference is given to students from universities in North Rhine-Westphalia.

Sartorius Scholarship

Website: www.sartorius.de

Foundation goal

With the international scholarship programme, Sartorius supports talented students and graduates from scientific and technical disciplines financially, professionally and personally.

Requirements

Students who already have a Bachelor's degree in natural sciences or engineering, and are registered for a Master's course in Germany or India are eligible for funding. They must demonstrate good academic achievements. Applicants should have a good command of English and be interested in gaining experience in an international technology company.

SBB – Stiftung Begabtenförderung berufliche Bildung

Website: www.aufstiegsstipendium.de

Foundation goal

The aim of the continuing education scholarship is to support skilled workers in obtaining further qualifications within their occupational field. The scholarship is particularly intended for individuals who are vocationally gifted but do not have the requisite school qualifications to enable them to study at university. The scholarship also aims to increase permeability between vocational and academic education.

Schiffbautechnische Gesellschaft e.V.

Veith Berghoff Stiftung

Website: www.stg-online.de

Foundation goal

The sole purpose of the foundation is to promote young academics in the field of naval architecture and marine technology.

Requirements

Students of naval architecture, marine technology and shipping at universities and universities of applied sciences who are studying in their fifth semester or higher are eligible for funding.

Applicants must be members of the Schiffbautechnischen Gesellschaft e. V. There must be a need for support.

Stiftung Johannes und Ella Hinsch

TU Hamburg

Tel.: +49 (0)40 42878 3255

Email: stiftung.hinsch@tu-harburg.de

Foundation goal

- Promoting young engineering talent and scientific research in the field of hydraulics, particularly in relation to pump technology, and possibly also fluid mechanics
- Supporting needy and worthy young engineers in the field of hydraulic pump technology, and
- Supporting needy engineers who have demonstrated outstanding achievement in the field of hydraulic pump technology.

Requirements

Students from universities, technical universities and universities of applied sciences, as well as pupils from technical colleges and persons who, in addition to their regular work, obtain further qualifications within the framework of organised training courses, i.e. participants in evening courses, distance-learning students or doctoral candidates, are eligible for funding.

Stiftung Stipendien-Fonds der chemischen Industrie

Website: fonds.vci.de/stipendien

Foundation goal

Supporting doctoral students in the field of chemistry. Scholarships are awarded to German and EU citizens.

Requirements

Scholarships are only awarded to students who have achieved outstanding academic results and have studied quickly.

Studienförderwerk Klaus Murmann

Website: www.sdw.org/studienfoerderwerk/

Foundation goal

We fund opportunity! Our vision is a society in which all young people can realise their potential. We support young people who want to achieve something. We're standing up for their future – and thus for an equal opportunity society.

Requirements

Students and doctoral candidates with above-average academic achievements who are willing to assume responsibility in society are eligible to apply. We are looking for people who are committed to the community beyond their personal interests and professional aspirations and who have a good general education.

Studierendenwerk Hamburg

Fritz Prosiegel scholarship (every 2 years)

http://www.studierendenwerk-hamburg.de/studierendenwerk/de/downloads/finanzen/FritzProsiegel_Flyer_2013.pdf

Requirements

The following persons can apply:

- Students born in Hamburg
- Who are enrolled at a high education institution* in Hamburg and
- Whose mother and/or father is/was or are/were teacher(s).

In addition, applicants should distinguish themselves through “special academic talent and achievement”.

* University of Hamburg, HAW Hamburg, HFBK University Of Fine Arts Hamburg, Hochschule für Musik und Theater, TU Hamburg, Bucerius Law School, Hafencity University

Georg Panzram book money for single parents in the final phase (every 2 years)

http://www.studierendenwerk-hamburg.de/studierendenwerk/de/familienservice/leistungen/Leistungen_fuer_alleinerziehende_Studierende/Leistungen_fuer_alleinerziehende_Studierende.php

Requirements

Applications are welcome from students

- Who are raising at least one child alone
- Who are enrolled at a university in Hamburg
- Who are in the final phase of their first degree.

Loan/finance to complete studies

http://www.studierendenwerk-hamburg.de/studierendenwerk/de/finanzen/darlehen/darlehen_studienabschlussfinanzierung.php

Requirements

The loans are granted for a specific purpose only. They are granted for necessary study expenses, and living costs in particular. As a rule, proof of need is required to grant the loan.

Studienstiftung des deutschen Volkes

Website: www.studienstiftung.de

Foundation goal

The Studienstiftung des deutschen Volkes is the oldest and largest scholarship organisation for gifted students in the Federal Republic of Germany. According to its statutes, it supports “the higher education of young people whose high academic or artistic talents and personalities lead one to expect special achievements in the service of the general public”. It is politically, denominationally and ideologically independent.

Requirements

You can be proposed for admission to the Studienstiftung or apply with a test yourself. Among others, headmasters (high school graduates), examination offices and university teachers (for students up to the second semester before completing the standard period of study) and supervisors of doctoral projects (for doctoral students) have the right to make a proposal.

Acceptance criteria are as follows: Achievement, initiative and a sense of responsibility. In addition to outstanding professional achievements, the Studienstiftung expects applicants to have developed and pursue interests and activities outside their field of study.

TUHH Stiftung

Website: <http://tuhh-stiftung.de/>

Foundation goal

The Foundation for the Promotion of the Technical University of Hamburg accompanies the university on its path to excellence.

The foundation supports research, innovative teaching methods, international campus life and opens up career paths for students.

The foundation therefore strengthens the Hamburg metropolitan region, as well as the first-class education of future generations.

The following persons may apply:

- People: Support for gifted students and scholarships, creative student projects
- Teachers: Innovative teaching methods, teaching equipment
- Research: Endowed professors, junior research groups
- International campus: Art, culture, sport

Walther Blohm Stiftung

Website: www.walther-blohm-stiftung.de

Foundation goal

Support will be given to talented young aerospace professionals by granting aid

- To further educate young engineers
- For doctoral candidates
- For stays abroad, study trips and similar, which undoubtedly serve the purpose of further professional training
- For completing technical projects in the context of university groups.

Requirements

- Good to very good academic achievements
- Degree completed quickly
- Engagement beyond university
- No other financial support for studies

2. Scholarships for international students

2.1. Scholarships and grants from the Hamburg University of Technology (TUHH)

Graduation grants

Requirements

Foreign TUHH students who are expected to successfully complete their studies within one year of submitting their application. Master's students may only apply for a grant for their last semester. Students must provide evidence of financial need.

Performance scholarships

Requirements

Foreign students at the TUHH

- whose academic achievements at the TUHH are significantly above average compared with the corresponding group
- Who have successfully completed at least one semester at the TUHH
- Master's students can only apply after the first semester

2.2. Studierendenwerk Hamburg

<http://www.studierendenwerk-hamburg.de/studierendenwerk/de/finanzen/>

Or

http://www.studierendenwerk-hamburg.de/studierendenwerk/de/finanzen/foerderung_studenten_ausland/foerderung_studenten_aus_ausland.php

Eligible applicants

Foreign students who are not entitled to BAföG can receive state funding to complete their studies. There is no legal entitlement to this funding.

Requirements

The students' education must be completed no later than two semesters after the application has been submitted. In addition, a performance level must be demonstrated

that corresponds to the current semester. Students' financial need must be proven, i.e. there must be no financial support from parents or other sources of financing.
