

Anhang 2 zur Satzung über das Studium an der TUHH in der Fassung vom 27. April 2016 (5. Änderung)

**Fachspezifische Anforderungen für den Master-Studiengang Environmental Engineering**  
**Specific Requirements for the International Master Program “Environmental Engineering”**

A Bachelor's degree or equivalent, at a second-class (upper) level or higher, in an engineering, science or technology subject like e.g. Environmental Engineering, Civil Engineering and / or Chemical Engineering.

- A minimum total of 18 credits (ECTS) earned in mathematics (including mechanics and / or statistics)
- A minimum of 24 ECTS engineering related topics, especially water, waste or energy related engineering topics
- A minimum of 6 ECTS in biology, ecology and / or other basics of natural sciences
- A minimum of 6 ECTS in chemistry and / or bio-chemistry

---

ECTS (European Credit Transfer System) credits are based on the workload students need in order to achieve expected learning outcomes. Workload indicates the time students typically need to complete all learning activities (such as lectures, seminars, projects, practical work, self-study and examinations) required to achieve the expected learning outcomes. 60 ECTS credits are attached to the workload of a fulltime year of formal learning (academic year) and the associated learning outcomes. 1 ECTS credit corresponds to 30 hours of work load.
